APPROVAL FOR ONSITE SOIL REUSE – BOEING REALTY CORPORATION, FORMER C-6 FACILITY, 19503 NORMANDIE AVENUE, LOS ANGELES (FILE NO. 95-036, SLIC 410)

Dear Mr. Mossman:

We have received the following three reports:

1. "Stockpile Placement/Disposition Evaluation, Stockpiles SP-19 Through SP-25" dated April 18, 2002, prepared by Haley & Aldrich,
2. "Stockpile Placement/Disposition Evaluation, Stockpiles SP-26 Through SP-34" dated April 18, 2002, prepared by Haley & Aldrich, and
3. "Stockpile Placement/Disposition Evaluation, Stockpile SP-35" dated June 3, 2002, prepared by Haley & Aldrich, and have the following comments:

Soils stockpiled during demolition and investigation activities are temporarily stored onsite and these Technical Memoranda present the methodology and rationale used to determine the suitability of these soils for reuse onsite. Soils with detectable levels of various chemicals that do not pose a threat to human health or degradation of the underlying groundwater are recommended for onsite reuse.

We have completed our review of the Technical Memoranda and concur with the proposed methodology and rationale and approve the onsite reuse of soils that meet the proposed criteria. During a meeting between Regional Board staff and Boeing on October 25, 2001, and January 31, 2002, Regional Board staff reviewed the sampling methodology and analytical results of the soil stockpiles SP-19 through SP-25 and verbally approved the onsite reuse for soil stockpiles and this letter documents that approval.

During a meeting between Regional Board staff and Boeing on February 27, 2002, Regional Board staff reviewed the sampling methodology and analytical results of soil stockpiles SP-26 through SP-34 and verbally approved the onsite reuse for soil stockpiles and this letter documents that approval.

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption
For a list of simple ways to reduce demand and cut your energy costs, see the tips at: <http://www.swrcb.ca.gov/news/echallenge.html>
